

# DUMPSTER DOUG

**Students discover their important role in protecting our natural resources**

With his team of Eco-Warriors; **Crush it Chris** and **Recyclin' Mike**, **Dumpster Doug** travels the earth searching for the sources of air, land and water pollution and then show K-6th graders that small changes make a huge difference when it comes to protecting the earth's natural resources.

**Students learn ideas they'll use for a lifetime!**

When one of these talented performers come to your school, students learn about the 4 R's: Reduce, Reuse, Recycle and Read so they too can become **Eco-Superstars** in the funniest and most magical environmental show your school will ever see!

**Make Pollution Disappear!**

Watch a dirty soda can become brand new as it is magically recycled in just 30 seconds. Witness trash being turned into useful products instantly as it enters a recycling bin and see a scrap of paper turned into something valuable (a one-hundred dollar bill) instead of being tossed aside. Tons of audience participation keeps kids on the edge of their seats while the teachers laugh along with all the great lessons.

**Audience:** PreK-6    **Capacity:** 400

**Presentation Time:** 40 to 45 minutes  
during set-up time.

**Set-Up Time:** 45 minutes. Please ensure performance space is clear and empty of classes

**Take-Down Time:** 30 minutes

**Presentation Area:** Brightly lit performance space; minimum area of 8 ft. x 20 ft. Performance space can be stage or floor-level; floor level is preferred. If performance space is floor level, please seat students on the floor and not in chairs. If the performance area is a stage please make sure there are stairs for easy volunteer access to the performance area.

**Assembly Requirements:** One large table. Depending on your location, you may be asked to provide a PA system with RCA-jack input. Nearby electrical outlet or extension cord.

**\*Presenter/Backdrop/Props may vary depending on your location.**
