

3 Screens

Highly Motivational Multi-Media Assemblies on Three Large Screens!

- A **43-foot wide video wall**, utilizing state-of-the-art sound and projection captivates attention and imagination.
- **Music and movie action** show how positive choices **now** can help avoid dangerous and destructive choices later.
- Different presentations are appropriate for K-6 or 6-12:

Grades K – 6 Character Education

Expect Good Things

“Instead of expecting good things for ourselves, we can expect good things from ourselves.”

As this exciting program unfolds, your students will learn:

- Politeness is more than “good manners”
- Good traits like honesty, come from thinking of others
- Remembering to be grateful always makes things better
- The greatest achievements are those that help others

They will see and hear:

- Movie characters they know and love
- The fun and colorful cars of Auto-B-Good
- Music from artists like Avril Lavigne and Vanessa Carlton

Shout!

“Children feel life is a game of chance; they wake up and roll the dice. No matter where they land, they’ll want to shout. But will it be a shout of triumph or one of agony?”

As this inspiring story plays, your students will learn:

- How they can do amazing things if they are not controlled by luck
- Constructive ways to view differences
- How to respond to a bully

They will see and hear:

- Movie characters like Shrek
- Artists like Backstreet Boys and Destiny’s Child
- **Stories about children who are making a difference now**

Grades 6 – 12 Drug and Alcohol Prevention

Jigsaw

How do we figure out exactly which pieces fit into the puzzle we call life? As if this were not challenging enough, we are faced with potential problems that masquerade as solutions. Jigsaw helps to promote:

- Drug and alcohol resistance strategies
- Recovery from addiction
- Driver safety
- Careful consumption of entertainment media
- Courage to pursue dreams

Music artists like Avril Lavigne, Weezer, and Sheryl Crow, along with entertaining sports and movie action, help to engage the hearts and focus the minds of students in a manner that results in clarity, rather than resentment.

Jigsaw 2: Never Give Up!

Jigsaw reflected on the complexity of life as we begin to make more of our own choices. **Jigsaw 2: Never Give Up** reminds us that while some things seem to take so long, the puzzle will come together if we **persevere**.

Humans have a **thirst for knowledge and desire to find meaning** in our lives that appears to be unique. Unless we learn to **balance the risk with the potential rewards**, we may not live to see our aspirations fulfilled. We can learn from the pain, future, and triumph of others.

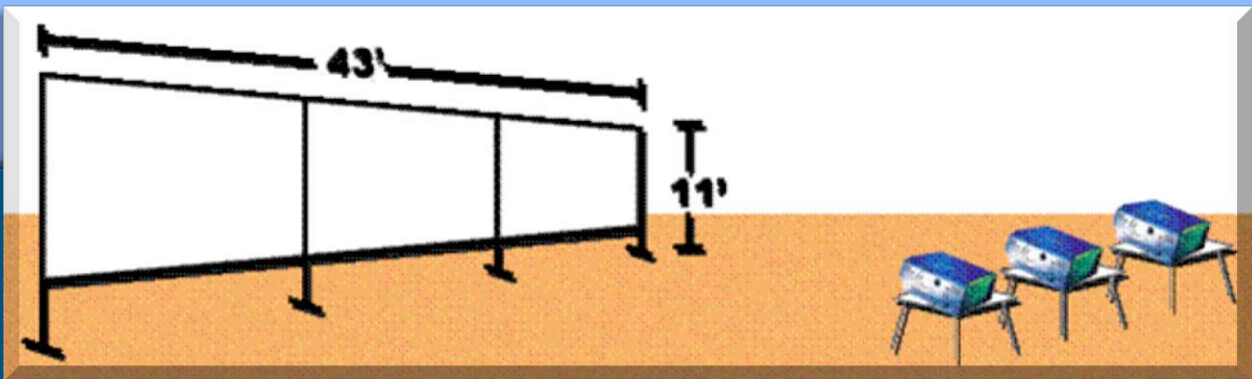

High impact action movie clips and sports action are woven together with **stories of students** that inform and inspire.

Foo Fighters, Weezer, Audio Adrenaline and other music artists, as well as numerous movie clips are included.

Program Specifications

Room Size

- Our full three-screen size is 43 feet wide by 11 feet tall. Please refer to the above diagram.
- Call us if you will need a smaller screen size.

Lighting

- Please cover windows, skylights, and other light sources before we arrive.
- The darker the better.

Scheduling

- Please allow 90 minutes before the screening and 40 minutes following to set up and tear down our equipment.
- We will need full access to the space that will be used during this time.

Assistance

- Please ask three to four students to help us set up and tear down our equipment for one hour before and 30 minutes after the assembly.

Power

- Please provide someone who can help us locate several live outlets and turn lights off and on during the program.
