Building Character on Unicycles

WITH KING CHARLES UNICYCLE TROUPE

Experience the unicycle at a whole new level of skill and agility.

A dazzling display of balance and amazing riding ability, the King Charles Unicycle Troupe wows audiences of all ages with a fast-paced routine of passing, dribbling, and slam-dunking basketballs—on unicycles!

Become part of the action in a jump rope routine and interactive workshop.

Students learn about *and* experience the unicycle. A volunteer from the audience is selected to participate in an extreme jump rope routine! The end of the program is an interactive workshop where interested students can learn the basic steps to ride a unicycle.

Learn principles to build citizens, role models and leaders for tomorrow.

Through an explanation of the history of the troupe and demonstrations of physical fitness, students realize the importance of character, attitude, pride, discipline and teamwork. Today's King Charles Unicycle Troupe continues the tradition of giving direction to and inspiring confidence and ambition in America's youth.
