

Explore the human spirit through art, music and technology...

THE SIGNATURE PROJECT

PATRICK DUNNING

The Signature Project, by Irish artist Patrick Dunning, is a performance of incredible artistry. Its core is a huge 76 ft x 36 ft mural layered with hidden secrets. A live performance brings the mural to life, with the artist ingeniously weaving stories about and images of the people that have signed the artwork, expressing the richness of the many cultures that compose our world.

A unique, exhilarating tapestry blending *art* and *technology*, the live performance of *The Signature Project* offers the opportunity for the audience to join over 300,000 people whose signatures already comprise the fabric of this monumental art work. From kindergarten through high school and beyond, *The Signature Project* will offer insight and inspiration to everyone.

The artwork and performance are constantly recognized as an outstanding example of how music, art, science, technology, nature, critical thinking, and the global impact of diverse cultures touch each and every one of us. The show has been ecstatically praised for its brilliant integration of arts in education, as well as it's powerful celebration of cultural diversity.

The Signature Project was conceived in 1992. When complete, the Signature Project will hold over one million signatures from people all over the world. We are honored to offer you this unique show that will make you laugh, cry, wonder and be amazed! Give this once-in-a-lifetime opportunity to your students and faculty today and become part of this international artwork in progress.

THE SIGNATURE PROJECT

PATRICK DUNNING

The Signature Project Program Specifications

Length:

Forty-five to fifty minutes.

Set up:

Must have access to the facility 3 hours prior to the show for set up. The night before may be preferred.

Presentation Area:

Please have windows darkened if the light in the area is excessive. If you can read a book in the presentation area, then it is too bright for this program. We are striving for "cinema darkness".

Assembly Requirements:

Two electrical outlets close to the presentation area.

Take Down:

One hour.

PLEASE NOTE

The Signature Project is an amazing and unique experience. Patrick Dunning, owner, performer, stage-hand and manager of this wonderful program, wants to insure your show is the best it can be. While Patrick does not require or need help in setting up for the show, he does have a couple of special requests:

-Each venue is different. Patrick is a professional artist and performer, having performed this program literally thousands of times. He knows what will work best in your venue space. Please leave decisions as to equipment placement, seating, enter/exit points and lighting to his discretion.

-Patrick asks that he be given the opportunity to treat the venue as "his classroom" for that day. He wants the audience to experience the full effect of the program—so teachers, save your paper grading for another time; besides, you do not want to miss a second of this performance!
