Outstanding School Assemblies

Technological Music Production

With Recording Artist Brent Daniels

Learn how music is composed in today's entertainment industry.

Using his keyboard, recording microphone and synthesizer, Brent will teach students how music is composed using computers and digital technology for albums, movie soundtracks, television shows, video games and more in the entertainment industry today.

Create a unique song composition just like the professionals.

Students will participate in the program to help Brent create a one-of-a-kind, on-the-spot sound creation and song composition that will raise the roof!

Realize how education and positive decision-making are important to success in every profession.

You will be amazed at the way Brent relates to students by bringing out the eager musician in each of them. Brent is an avid advocate for education and will demonstrate for students how education—even the subjects of Math and English—and positive decision-making are important contributors to success in every professional career.
