

3 SCREENS

Highly motivated multimedia assemblies on THREE large screens.

A 43-foot wide video wall, utilizing state-of-the-art sound and projection, captivates attention and imagination. Music and movie action show how positive choices NOW can help avoid dangerous and destructive choices later. 3 Screens presenter Mark Bixler has programs appropriate for all grades K-12.

State of the art sound and video captivates while real-life stories motivate and inspire!

Popular culture music and video comes to life on three large screens. Students see and hear stories from children and teens who have experienced the consequences of poor choices. As their stories come to live, students are inspired and motivated to make a positive difference in their lives NOW!

Programs tailored to every grade level.

Choose from a number of programs for elementary, middle and high school. Bring the program to life with discussion guides for each program. New programs added frequently, so it's okay to keep bringing 3Screens back to your school year after year!

Audience: K-12

Capacity: 400

Presentation Time: 45 to 50 minutes

Set-Up Time: 90 minutes

Take-Down Time: 40 minutes

Presentation Area: Full screen is 43 feet wide by 11 feet tall. Please call us if you need a smaller screen size. Please cover windows, skylights, and other sources of light before we arrive. The darker the better. Aiming for "cinema darkness."

Assembly Requirements: Please provide access to live electrical outlets and someone to turn lights off and on during the program.

Assistance: Help bringing equipment into and out of the building is greatly appreciated. The 3screens presenter will require some help during the set-up, but this is often limited to as little as one helper for five minutes to tip up the screens. However, there are many situations that arise which may require one or two helpers for much of the set-up and/or break-down (such as difficult access that requires several longer trips from the door to the venue, tight schedules for the use of the room before and after the assembly, and unforeseeable problems of various kinds). The 3screens presenter is best able to answer any questions you may have when they call to confirm your plans.
